Response to Notice of Non-Compliant Appeal Brief Under 37 C.F.R. § 41.37

This response is filed within one month of a notice of non-compliant Appeal brief dated March 19, 2010. The Notice stated that the brief did not contain a correct copy of the appealed claims. Applicant respectfully disagrees and submits that section VII on pages 13-33 contained the correct clean copy of the appealed claims. Applicant notes that as a courtesy Applicant included a copy of an unentered amendment as Appendix XI at page 61-82. Perhaps the Office mistakenly thought Appendix XI was the appealed claim set rather than a courtesy copy of an unentered amendment? Applicant's Attorney placed phone calls on April 2 and April 19 to the Office to clarify the issue, however the Attorney's calls were not returned.

In any event, in an abundance of caution, Applicant herewith submits a new Appendix VII listing the appealed claims. Applicant respectfully requests that the attached clean copy of the appealed claims be accepted and inserted into the Appeal Brief at page 13.

Please charge any deficiency in fees or credit any overpayments during the entire pendency of this case to Deposit Account No. 05-1712. Please also charge any petition fees, including fees for extensions of time necessary for the pendency of this case or copendency of this application with another application at any time to Deposit Account No. 05-1712.

Respectfully submitted,
